

Listing 1000 properties in Gibraltar from 12 leading Estate Agents.

Almost every country has a well established property portal website. We take the view that Gibraltar deserves one too!

Introducing PropertyGibraltar.com the only Gibraltar Property Portal on the web. A professional and fresh new website in which all estate agents in Gibraltar are able to list all their properties under one roof and help make buying a home in Gibraltar a whole lot easier.

Over the past decade Gibraltar's property market has shown substantial growth and continues to show resilience amidst a world-wide crisis which has affected property markets across the globe. There is no question that a substantial part of the market is geared by international clientele relocating to Gibraltar and with this there is also an expectation of what the Gibraltar property sector can offer.

Piranha Designs has worked closely with nearly 90% of property agents locally and we are aware of the sensitivities of the industry. Our service, trust and professionalism leads us to believe that we are perfectly placed to offer a property portal that will simply add value to the already existing service that we provide our long standing clients. This new concept for Gibraltar is designed purely to broaden the agents horizon.

Benefits for Clients:

Search all of the properties available in Gibraltar in one click.

Property alerts – a system that allows all users to enjoy instant information on new instructions.

Locate the right estate agent under the estate agent directory.

A clean, visually fresh site that delivers a simple way to choose and search for the right property.

Contact relevant companies for other related services

Benefits for Agents:

PropertyGibraltar.com is already number one in google for many top keywords, you too can benefit from this high ranking, without fear of any impact on your business.

Advertise special offers, developments or opportunities directly to the correct target market.

List all your properties without having to do anything.

Automatic property alerts get sent to clients regularly.

Get new leads from overseas clients and locals too.

Cost:

£125 per month for your whole portfolio of properties for sale and for rent. Commercial properties are not currently supported, but coming very soon.

Setup fee:

There is a one off £250 setup fee, to create an XML feed that automatically updates the portal. Alternatively this can be done by your current web designer.

For Piranha Design Clients:

£100 per month and no setup fee. Get all your properties in the portal and updated daily automatically.
